PETITIONS OPEN TO ONE ATTACK

SECRETARY OF STATE RULES OUT ALL OTHER PROTESTS OF REFERENDUM.

Oklahoma City, Okla., Oct. 25.—The only question Secretary of State Ben H. Harrison will consider in passing on the petition against the petition in the referendum of certain sections of the election law, is whether or not it is necessary that the petition be addressed to the governor. They are not and this matter was presented as one of the points in the protest, hearing on which was begun today. Attorneys will be given until 10 o'clock Monday morning to present authorities in the matter. The secretary will then rule on the sufficiency of the petitions. He denied the protestants' offer to introduce evidence on allegations of fraud to which the protestants excepted and announced that an appeal would be taken to the supreme court. The secretary after examining the petitions offered on the referendum stated that he doubted whether any of the allegations of fraud could be proven, and that in regard to the claim of wrong address and other apparent technical irregularities he thought the supreme court had already covered the matter in its opinion in a former case wherein the doctrine was expounded that clerical errors would not tend to invalidate petitions where there was no intent of fraud.

GET A BOX OF NORRIS' EXQUISITE CANDIES FOR HER TODAY AT BOMAR DRUG CO.

Homemade Cedar Chest.

Get a large pine packing box. Hinge on the lid and putty up the cracks if there are any, but it is better to get one without cracks. Purchase a bottle of cedar oil from the drugist and paint the inside of the box with this, being sure that the oil soaks into all crevices. Use the oil plentifully, and when thoroughly dry line the box with cambric. Cover the outside with any preferred material. The cedar oil will retain its odor for years, and as a moth repellant by itself.

Trying to Be Resigned.

"So you've lost your nice pussy cat," sympathized grandma, hearing sad news. "Too bad! I know how you loved him. You miss him dreadfully. I suppose?" "Oh, yes, I miss him some," six-year-old John replied, with an air of chastened sorrow, "but then, grandma, since I've loved so much about this germ business I try to think it's just as well."

Have Learned Nothing of Dreams. Dr. W. E. Scripture of New York says that ambidextrous persons never dream, while right-handed persons dream with the right hemisphere of the brain, because they use the left brain lobe for conscious thinking. Comparatively speaking, he said, modern scientists know as little about dreams as man did when the first sleeper had his first dream.

Toward the Right.

I find the great thing in this world is, not so much where we stand, as in what direction we are moving. To reach the port of heaven we must sail sometimes with the wind and sometimes against it—but we must sail and not drift nor lie at anchor.—Oliver Wendell Holmes.

Knew Where He Was.

Always ready.

It appears that there is always a mysterious woman waiting for the married man who wishes to wind up his career with a joyride.—Chicago Record-Herald.

Hunters Killed Large Eagle.

Claremore, Okla., Oct. 25.—While hunting, near the Moore ranch, near Tiawah, this county, Charles Gibbs and Ed Bearen, of this city, on Wednesday killed an eagle which is a monster, measuring about eight feet from tip to tip. When shot the bird was eating a rabbit, which it had swooped down upon and caught. After pumping several shot into the bird, the boys resorted to the use of a club before the "king of the air" was finally killed. The dead bird was presented to the biological department of the Eastern University Preparatory School, where it will be stuffed and mounted.

Strength of a Nation.

The foundations of a strong and virile race are laid in the rural districts, and, if agriculture be allowed to decay, no development of industries in the heart of the town will atone for the loss to the nation of that greatest of all industries which makes wealth while it creates manhood.—Percy Alden.

Gift of Books.

When I consider what some books have done for the world, and what they are doing, how they keep up our hope, awaken new courage and faith, soothe pain, give an ideal life to those whose hours are cold and hard, bind together distant ages and foreign lands, create new worlds of beauty, bring down truth from heaven; I give eternal blessings for this gift, and thank God for books.—James Freeman Clark.

Only Once.

Excerpt from an interview with a visitor to town, printed in an exchange: "The velocity of time and the friction of years will never erase the pleasure of this visit. The many pleasant rides and kisses from my once sweet girl friends will ever linger with me."

Aid for Short-Sighted.

A German doctor has devised a revolutionary method of correcting poor eyesight. It is a telescope spectacle and is claimed to be the best and healthiest method for a nearsighted person to bring objects close to the eyes and thus see well at a distance. The glasses are a combination of a convex objective with a concave eyepiece and have to be fitted most carefully to each person.

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat, so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street or in public places make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed, and as quickly as possible. This season's dresses seem to be made for the fat woman's misery, and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of about 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a box, or if you prefer you may write the Marmola Company, Warner Bldg., Detroit, Mich.
